

**ANNOUNCING OUR NEW LIGHTING PRODUCTS AVAILABLE FOR RENTAL**

What attracts visitors to your booth? Excellent exhibit design and a marketing strategy. We think the most important aspect of the marketing strategy is the lighting. To help draw visitors and business to your booth we are pleased to offer two new lighting products available for rental. Skanda LED Clamp on Light, the Nora Track Light and PARCAN Overhead Light. The clamp on lights are useful if you are trying to create smaller spotlights on specific posters, the track lights are useful if you are trying to highlight specific products within your booth and our PARCAN Overhead Light is useful if you want to add additional overhead lighting to your booth or spotlight a hanging sign, etc.

With these ideas in mind, we think you'll be better able to market your product or service and attract attention!

**\*RENTAL PRICE INCLUDES POWER, INSTALLATION/DISMANTLE AND A ONE-TIME FOCUS\***
